

GOVERNMENT OF IMO STATE OF NIGERIA

2020 FIRST QUARTER BUDGET IMPLEMENTATION REPORT

*Produced and published by
Imo State Ministry Of Budget And Economic Planning
April 2020*

FOREWORD

This report is the first ever quarterly budget appraisal or implementation report in the State, meticulously package by the Ministry of Budget and Economic Planning in the last 18 years. Previous administration through the office of Accountant General have refused to make Financial statistics available to perform this obligation because of the opaque nature of previous Government Fiscal accountability. The present Government led by **His Excellency, Senator Hope Uzodimma** believes in transparency and willing to render Account of stewardship to the people of Imo State. Thus the need to re-engineer and better the economic life of Imolites formed the road map for critical review of the quarterly performance of the MDAs. Careful assumptions were drawn after appraisal of the global economic trend that inform both our economic and fiscal updates for the 2020 budget.

However, before the commencement of the new budget cycle, the Ministry of Budget and Economic Planning reviewed the previous performances, taking into cognizance the fragile crude oil and revenue its consequence on Naira value. The need to operate a realistic budget necessitated the reduction on the budget size of about **₦276Billion to ₦197.7Billion** in 2020.

It is encouraging that despite the numerous economic challenges inherent in the present administration, the global economic lock down occasioned by the Coronavirus Pandemic, the State has maintained a fair economic stability. Hence much has been achieved through prudent economic management and the financial prowess of the present administration ably led by **His Excellency, Senator Hope Uzodimma**.

I wish to thank the staff of this Ministry (Budget and Economic Planning) who painstakingly put together this report, Office of Accountant General of the State who honored our request by releasing vital fiscal Statistics which enable us to present this report.

Hon C. C. Osuala, PhD

Hon Commissioner,

Ministry of Budget and Economic Planning (MBEP)

PREFACE:

This first edition of the 2020 Quarterly Budget Review is a step in the right direction. This appraisal of the budget will encourage accountability, transparency and credibility and will also help in the monitoring of how the State spends its money. The 2020 Budget comes from a background of economic uncertainty given the fact that the nation just recovered from a recession the previous year.

The expectation was high on oil revenue, though the state was not relenting on collection of all accrued revenues from the internal sources.

The new administration kicked off on an empty treasury depicting a rocky economic base. The situation was compounded two months later when the nation recorded its first index case of the dreaded Covid 19 pandemic, resulting to a safety measure of lockdown. This drastically affected the Internally Generated Revenue (IGR) and the Gross Domestic Product (GDP) of the State as civil servants were all at home.

This notwithstanding, many capital projects were executed and of course both Personnel cost and Statutory Revenue Fund Charges were attended to which yielded laudable achievements in the first quarter despite all the economic doldrums

I wish to sincerely appreciate all the staff of the Ministry of Budget and Economic Planning for their relentless efforts and team spirit which saw the realization of this report.

Rev. Udeh R.O

Ag. Permanent Secretary

Ministry of Budget & Economic Planning.

Fiscal Analysis of the 2020 Budget Appraisal or Implementation

2020 Approved Budget of Imo State Adopted Federal Government 2020 Budget Assumption such as:

1. Crude oil bench mark of \$57per barrel
2. Oil production estimate of 2.5 barrels per day
3. Exchange rate of ₦305 per US\$

ANALYSIS OF CAPITAL EXPENDITURE PERFORMANCE IN THE FIRST QUARTER OF YEAR 2020:

S/N	DESCRIPTION	2020 QUARTERLY BUDGETED	2020 FIRST QUARTER ACTUAL	FIRST QUARTER PERFORMANCE
1	CAPITAL BUDGET	26,570,896,170	531,928,430	2%

FIRST QUARTER APPRAISAL:

A whopping sum of ***₦26,570,896,170 (Twenty-Six Billion, Five Hundred and Seventy Million, Eight Hundred and Ninety-Six Thousand, One Hundred and Seventy Naira only)*** was earmarked for Capital Projects in 2020 budget for the first Quarter of the year. This is to provide infrastructural projects for the well being of Imolites.

However, from the available records, it was observed that a total sum of ***₦531,928,430 (Five Hundred and Thirty One Million, Nine Hundred and Twenty-Eight thousand, Four Hundred and Thirty Naira Only)*** was released for Capital projects during the period under review (January – March 2020), representing 2% performance in the first Quarter. This shows a remarkable decrease in what was budgeted for the first quarter of the year and what was spent.

It was also observed that it was only the Economic and General Administration sectors that executed some projects in the first quarter of 2020 implying that the Social services sector was not carried along but it must be clearly stated that capital expenditure releases are made on request by the MDAs.

The reason for the poor performance of the Capital Project in the first Quarter is stemmed from the fact that the Covid 19 Pandemic shut the global economy down, thereby forcing the already government adopted US\$57 Per Barrel bench mark down to less than US\$20 Per Barrel. This appraisal was done based on the data available at the time of preparing this report.

CONCLUSION

In conclusion, the 2020 Approved Budget can be said to be a Child born and brought up in a very difficult environment. The overall first quarter performance of 2020 Budget was adversely affected by the Global 2020 problem called COVID-19 or the Corona Virus Pandemic. This problem saw oil price crashing to an all time low level of below 10 per barrel. This affected the Revenue inflow in terms of Statutory Allocation.

The lockdown , hampered economic activities and frustrated revenue collection. The expected First Quarter Revenue target is **35,129,188,478** but only **14,476,450,119.57** or **41.2%** was realized th sum of **6,961,632,407.26** accrued to the State from Statutory Allocation, which represented **14,675,000,000** 47.4% performance.

IGR did not fare well as it recorded 24.4% performance bringing to the State 2,239,498,709.25 instead of 9,161,688,478 targeted.

On the Expenditure side, it did not record an impressive performance as it recorded 35% only out of targeted expenditure of **19,335,014,646.75** only **6,777,579,800** was spent. Subvention recorded the lowest performance of 28% as only **2,230,261,315.07** was spent as against, **8,467,899,017** targeted in the First Quarter.

Personnel Cost recorded 104% indicating that salary were promptly paid even meeting up increased Personnel Cost as **2,320,261,315** was paid as against **2,237,374,102.75** projected Personnel Cost.

In conclusion, we can say kudos the Executive Governor of Imo State **SENATOR HOPE UZODINMA**, who has been able to meet the obligations to the people of Imo State, despite the harsh economic climate occasioned by the Global Crisis because of the Corona Virus Pandemic. This is the first time Imo State First Quarter Budget analysis is going public in the last 18years.

This is because of transparency and openness of this administration and the dynamism of the best ever Commissioner for Budget and Economic Planning Imo State has ever produced in the person of **Hon. C.C. Osuala PhD**. Statistical information which are hardly released to do this work, he has been able to convince our new and vibrant Accountant General to release same as it will do the State good and not harm as erroneously believed by the previous administrations. May this good work started by the Hon. Commissioner never stop at this edition.
