**AS A RESULT OF THE COVID-19 PANDEMIC LOCKDOWN AND OTHER EMERGENCIES**

### **1. Introduction**

- 1.1 Since the outbreak of the New Corona Virus (COVID-19) pandemic, global socio-economic activities have practically ground to a halt and this has affected the revenues from oil resources, taxes and other streams. Unfortunately, IMO STATE was not spared, and this has adversely affected the State's capacity to implement the 2020 Appropriation Law.
- 1.2 Due to the imminent threat to lives posed by the COVID-19 pandemic and to ramp up the Nation's capacity to address this crisis, Public-Spirited Individuals and Corporate Organizations have made reasonable financial contributions to support the fight against this pandemic. In addition, some of our Development Partners have indicated willingness to provide budgetary support to enhance the implementation of the 2020 Appropriation Law in the face of dwindling revenue, particularly as it affects our response to the COVID-19 pandemic.

- 1.3 In view of these facts, there is need for all procuring entities that will participate in procurements that respond to the COVID-19 pandemic to ensure transparency, accountability, value for money with integrity in their procurement proceedings. This is because the procurements to be executed in response to the COVID-19 pandemic will generally fall under Emergency Procurement Method instead of the default Open Competitive Bidding Method.
- 1.4 The IMO State Bureau of Public Procurement and Price Intelligence (BPPPI) pursuant to the provisions of Sections 45(1-4) of the State Public Procurement Law No.12 of 2010 and mindful of its oversight responsibilities as the Regulator of Public Procurement in the State, hereby provides additional Guidelines to facilitate the necessary changes to the conduct of public procurement activities required as a result of the COVID-19 pandemic/Lockdown which constitutes Emergency Procurement. This Guideline is also applicable to future emergency situations.
- 1.5 These guidelines are specifically on procurement-related activities and do not offer any general or health-specific guidance. The Imo State Ministry of Health and the Federal Ministry of Health/National Centre for Disease Control guidelines on Coronavirus should be strictly observed. A copy of their safety guideline can be found on their website [www.ncdc.gov.ng](http://www.ncdc.gov.ng)

## **2. Preparation of Emergency Procurement Plans**

- 2.1 All Procuring Entities are to prepare Procurement Plans for all projects that specifically respond to the COVID-19 pandemic. These Plans should be uploaded into the BPPPI/State's website. Any project that is not included in the Procurement Plan of the Procuring Entity shall not be processed for payment notwithstanding the source of funding for the project.
- 2.2 In preparing the COVID-19 Procurement Plan, Procuring Entities should ensure that no reduction of values or splitting of procurements is carried out such as to evade the use of the appropriate procurement method or thresholds.
- 2.3 For public procurement activities as a result of the COVID-19 Pandemic/ Lockdown, the requirement of publishing the opportunity on the State/BPPPI website alone is enough under the current circumstances. However, when practicable, the advertisement can be published in National Dailies of wide circulation in addition to the website of the State/BPPPI.

## **3. Procurement Implementation**

- 3.1 Section 45(1-4) of the State Public Procurement Law (PPL), Procurement Regulations and Procurement Procedures Manual that applies to emergency procurement clearly highlights the procedure to adopt when handling procurements under emergency situations like the COVID-19 pandemic. It is the responsibility of Ministries, Departments and Agencies (MDAs) involved in responding to the COVID-19 pandemic to identify such procurements.

3.2 In line with the provisions of Section 45(1- 4) of the PPL, a Due Process “No Objection” is not required prior to embarking on an emergency procurement. Contracts awarded under these circumstances shall be reported to the BPPPI promptly but not later than four weeks after award of such contract.
